## WORK OF SIXTY-FIRST CONGRESS

Exceedingly Small Product During Short Session.

### SERIOUS SPLIT IN MAJORITY

Payne-Aldrich Tariff Law, Which Was Enacted at a Special Session in 1909, the Leading Event of the Recent Congress—Lack of Harmony Between Regulars and Progressives Has Been the Cause of Sidetracking Legislation.

Washington, March 4.—In the retrospect the sixty-first congress, which expired by constitutional limitation at noon, appears to have been distinguished by three things: The revision of the tariff in the so called Payne-Aldrich bill, which was passed at an extra session in the summer of 1909; the large amount of important legislation, much of it upon the recommendation of President Taft, enacted at the regular session of 1909-10, and the exceedingly small product of the "short session" so called, now coming to a close.

The interval between the last two sessions was marked by the political upheaval registered at the general election of last November, which changed a large Republican majority in the house of representatives; cut the Republican majority in the senate almost to the vanishing point and incidentally effected striking changes in the senate personnel.

The failure of this session to enact much important legislation has resulted in the practical certainty that the new sixty-second congress will be called almost immediately in extraordinary session, especially by reason of the strong desire of President Taft to obtain action upon the pending reciprocity agreement with Canada, to the consummation of which the contracting parties pledged the utmost efforts of the two governments.

Split in Majority Ranks. In strong contrast with the support which the Taft administration received from the Republican majority in the matter of legislation in the regular session of 1909-10 is the fact that at the present session the majority has been anything but united; the reciprocity agreement was passed in the house by the aid of a large proportion of Democratic votes, while in the senate the rift in the majority between the regulars and the progressives has been an important factor in its sidetracking and in the consequent summoning of the extra session.

To this division in the majority was largely due the most dramatic feature of the previous long session—the protracted and sensational conflict last spring which ended in material changes in the rules of the house generally interpreted as "the overthrow of the speaker," and which, after a bitter fight lasting many hours and including one all night struggle, stopped only just short of the actual unseating of Speaker Cannon.

In the senate the most sensational feature of this session was the unavailing effort, in which the progressives were most active, to unseat William Lorimer as junior senator from Illinois on the ground of alleged bribery in connection with his election by the legislature of that state in the spring of 1909.

Direct Election of Senators. Another important recent action of the senate was the defeat of the resolution embodying a proposed amendment to the Constitution of the United States to provide for the direct election of senators by the people.

This resolution received more than a majority of the senate, but it needed a two-thirds vote and fell short by only four. Had the senate passed it the house almost certainly would have done so. The friends of this proposition entertain little doubt that it will pass the next congress and go to the states for ratification or defeat.

The output of this session in the way of general measures consists chiefly of the appropriation bills and several of those have seemed in danger more than once in the tense situation of the past few days when long hours passed away in filibustering on one side or the other.

There were between 35,000 and 45,000 measures before congress as it came to a close. The failure to enact many laws was not due to lack of raw material.

These are some of the more important measures, outside appropriation bills, that the final session of this congress enacted into law:

Providing for forest reserves in the Southern Appalachian and White mountains.

Providing for the inspection of boilers on locomotives.

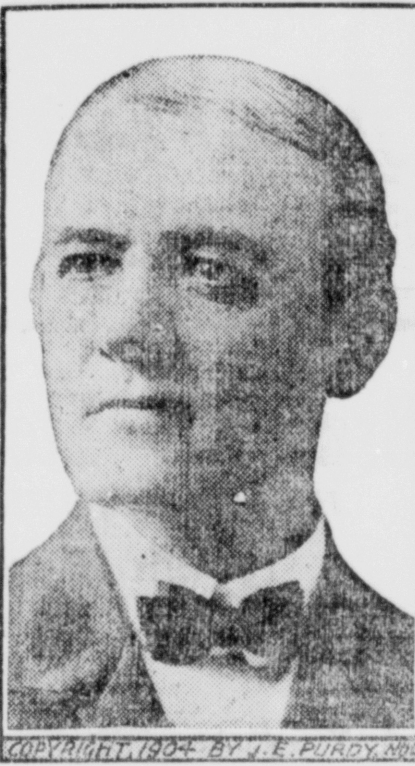

Providing for the purchase or erection of embassies, legations and consular buildings.

Double Suicide Probable.

Council Bluffs, Ia., March 4.—The bodies of Chris Christensen and a Miss Riler were found in Christensen's home. All appearances point to a double suicide. The two had been dead several days. Between the bodies, which were lying on a bed, was found an empty glass bottle. Christensen was forty-five years old and Miss Riler thirty.

CHARLES E. TOWNSEND.

Declares Reciprocity Is Only First Step in Big Project.

### OPEN GREAT LAKES TO SEA

Senator Townsend Says Reciprocity Is Only Step in Big Project.

Washington, March 4.—Senator Charles E. Townsend of Michigan sprang a tremendous surprise upon the country in connection with the Canadian reciprocity agreement. After a consultation with President Taft he announced that this trade agreement was but one of the smaller steps toward a project of such portentous magnitude that when it would once be understood the people of the United States and Canada in opposition to the agreement would be compelled to yield.

"It means," he said, "the opening of the Great Lakes to the sea for vessels of any size."

This plan was made public in the form of a resolution introduced in the house asking for negotiations with Canada for the improvement and deepening of the St. Lawrence-Welland canal route from the Great Lakes to the sea. The resolution calls upon the president to open negotiations with Canada on the matter.

### GRAIN DEALERS AT WINNIPEG REJOICE

Believe Failure of Reciprocity Will Advance Prices.

Winnipeg, Man., March 4.—There is great rejoicing in the grain trade of Winnipeg at the failure of reciprocity to reach a vote at Washington. Wise ones here think it means an advance of 5 or 6 cents a bushel in the United States wheat markets and 2 cents a bushel here.

The executive of the Manitoba Grain Growers' association, representing 30,000 farmers, at a meeting passed a resolution stating that the Winnipeg Grain exchange, the Winnipeg board of trade and the Manitoba legislature have absolutely misrepresented popular opinion in Manitoba on reciprocity and that the farmers of Western Canada will not be satisfied with anything short of the ratification of the reciprocity agreement now before parliament; the complete abolition of duties upon United States agricultural machinery and implements; an increase in the British preference to 50 per cent of the general tariff.

### MINISTERS STAY IN OTTAWA

Canadian Cabinet Members Not Planning Reciprocity Conference.

Ottawa, Ont., March 4.—The Canadian cabinet ministers are all in Ottawa and none of them, it was said, had any intention of going to Washington to confer with President Taft on the reciprocity question. Following the recent departure for Washington of United States Consul General Foster it was reported that the cabinet ministers would attend a conference in Washington for the purpose of considering possible amendments to the treaty, but this was authoritatively denied.

It is stated that when the reciprocity treaty was explained to parliament by Minister of Finance Fielding the understanding was that both countries, if they adopted it at all, would adopt it without change.

The Word Slave. The word "slave" originally meant "noble," being, in the first place, "Slav," one of the Slavonic race.

### Train Kills Farmer.

Minneapolis, March 4.—John Ferchels, fifty-six years old, a farmer living at Loretta, Hennepin county, was run down and killed by a Soo passenger train while walking on the track on his way home from Rockford, six miles distant.

## GOODBYS SAID BY CONGRESSMEN

Many of Them Are Quitting Public Life Forever.

### CLOSING DAYS ARE PATHETIC.

Time Gallops Faster For the Man About to Drop Out of Politics Than For the One With a Note Flinging Due. Many "Swan Songs" Printed in the Congressional Record.

By ARTHUR W. DUNN.

Washington, March 4.—[Special.]—These are goodbye days, and what is really sad about it is the fact that many men are saying goodbye to political associates, as such, forever. There are some of those whose terms end this week who may return; there are several who will never make the effort; there are quite a number who do not want any more of public life. But there is also a large majority who close their congressional careers with many regrets.

All during the week there were men who were counting the days in a rather sad manner. They would say "I have four more days" or "three more days of public life" or something of the sort, and every expression of the kind carried a tone of sadness in it. "In which case does time gallop faster," I asked one of the men going out, "when you have a note coming due in the bank or when you are approaching the end of political life?"

"When you are nearing the end of the political term," he replied. "You sometimes have a chance to extend a note, but March 4 means the end of many a man in politics."

Influence of Oratory. One of the old debating society's topics was whether music or oratory has the greatest influence on mankind. While we do not know whether there was any music in connection with the Lorimer case, it is certain that the oratory of Senator Bailey had a considerable effect.

At the time the Texan made his speech it was evident that there was a majority against Lorimer. Not long afterward the majority was the other way, although Senator Beveridge devoted much time to a great oratorical outburst on the other side.

And so the question of the effect of oratory remains unsettled. But there was a great deal of pressure from some source for Lorimer toward the last of the session.

Feeble Senators. While the senate was working long hours to finish business compassion was expressed for several old and feeble senators, and we could not help wondering whether several of them had not answered to the roll call for the last time. It will be a very strange thing if they should last through another congress.

Would Not Be Serious. Congressman Martin of South Dakota was trying to get an appropriation for the care of the Wind cave in his state. Really this is one of the novel features of this country, for it is a cave in which the wind comes and goes in a stiff breeze. But Martin, who is rather serious minded, had to accept the fun poked at him.

"What makes this cave so wonderful?" asked Taylor of Ohio.

"Hot air," replied Adamson of Georgia.

"Does this cave ever produce anything but wind?" asked Hughes of New Jersey.

Martin patiently explained that it was one of the wonders of the world and that nearly 4,000 people visited it last year. And then the house voted against his proposition.

Farewells in the Record. The Congressional Record has been unusually fat during the closing days of congress, and much of its contents have been farewells—"swan songs" they are sometimes called.

When such speeches have been delivered on the floor of the house they have called forth merry jests from political opponents. Democrats have had considerable fun with the standpatters who made speeches of political character. In fact, it is the time for Democrats to have the political laughter on their side.

Can Work With Democrats. Just as President Cleveland found substantial support among the Republicans so President Taft finds that he can get along with Democrats and have good support from many of them. It often happens that a Democratic senator or representative is summoned from the capitol to confer with the president. It is the intention of the president to work in harmony as far as possible with the Democrats in the sixty-second congress, especially as that party controls the house.

Watching Appointments. Just now there is great interest in a number of appointments that are to be made by the president. It is believed that in carrying out his legislative program the president intimated that he could take care of a number of the defeated Republicans whose terms expired March 4. It was known that quite a number of these gentlemen were looking forward to federal positions, consequently the appointments which the president makes immediately after adjournment have more than the usual interest.

The Resemblance. Why is a blade of grass like a note of hand? Because it is mated by falling due.

PROF. CHARLES ZUEBLIN.

Says Lack of Money Forces Women to Wed Men They Don't Love.

### MONEY DEGRADES WEDLOCK

"Lack of It Forces Many Women Into Loveless Marriage"—Zueblin.

Chicago, March 4.—Money, not the possession of it, but its lack, is responsible for the degradation of the millions of women who must marry men whom they do not love.

Lack of economic independence has compelled women to place this stigma upon their sex.

These were the conclusions of Professor Charles Zueblin in a lecture on "The Family." He advanced a new reason for the existence of "the unwritten law." He said that it was due to the fact that a woman with "a million dollars personality" found herself dependent upon a "thousand dollar masculine income."

"It is a painful fact that unless a man and woman love each other or are sacrificing themselves for the sake of their children they have no right to live together," he said. "Yet there are millions who do and must."

### BROWN HAS BEST OF FIGHT

Clearly Outclasses Wolgast in Ten Round Bout.

New York, March 4.—Valentine (Knockout) Brown, the towheaded Little New York lightweight, gained a popular decision over Ad Wolgast, world's lightweight champion, in a slashing ten-round bout at the National Sporting club of America. The crowd of 3,000 which saw the fight voted him a victor, although the law requires that no decision be rendered.

Brown forced the fighting from the start and on the whole gave more punishment than he received.

In the clinches Wolgast showed superior ringmanship with his infighting. His tactics were so rough, however, that they brought hisses from the spectators.

### SAYS ROADS VIOLATED RATES

Iowa Commission Prepares Complaints in Twenty-two Cases.

Des Moines, March 4.—The Iowa railroad commission prepared complaints to submit to the interstate commerce commission in which twenty-two Iowa railroads are made defendants. The railroads are charged with violation of the Western classification freight rates into and from Des Moines to out of state points in that they charged higher rates than provided in the schedules.

## MONTANA SOLON OUTLINES IDEAS

New Senator a Pure Democrat of Jefferson School.

### DISCUSSES LIVE QUESTIONS

Favors Direct Election of United States Senators, Opposes Monstrous Expenditures of Public Money for Military and Naval Purposes, Favors Income and Inheritance Taxes and Reciprocity With Canada.

Hamilton, Mont., March 4.—When seen at his office in the courthouse by a reporter Senator Elect Henry L. Myers summed up his stand on several public questions in the following manner:

"I am absolutely and unqualifiedly in favor of the direct election of United States senators.

"I am opposed to monstrous expenditures of public money for military and naval arrangements. I sincerely believe it a little less than criminal to spend so much money for these purposes.

"Without specifying in detail I am inclined to favor income and inheritance taxes. I believe a portion of our revenue should be raised in this manner.

"As to reciprocity with Canada, without binding myself in the least, I think it a good thing and I expect to stand with the Democrats of the country on the questions of today.

"Summing up I am absolutely a simon pure Democrat of the Jeffersonian school. I believe in the Jeffersonian principles of simplicity and economy. I shall seek to apply the principle 'equal rights to all, special privileges to none,' to the solution of questions of public policy that may come before the United States senate."

Helena, Mont., March 4.—The Twelfth Montana legislative assembly adjourned sine die at 8 a. m., after being in session all night, during which time a piece of paper was pasted over the face of the clock. After 1:30 there was no further attempt to transact business except to receive reports from enrolling committees. About 120 bills were sent to the governor from the assembly after midnight.

### CALLS FOR ANOTHER PROBE

Resolution to Investigate Former Insurance Commissioner.

St. Paul, March 4.—John A. Hartigan, former insurance commissioner, may come under the fire of the legislature. W. A. Campbell, house member from Minneapolis, introduced a resolution calling for an investigation of the department of insurance since 1905. Mr. Campbell declares expenses of the department were greater than under the old fee system.

There will be no reorganization of the state department of public instruction by the present legislature. The house committee on education, after giving the Kunze bill for a state board of education several sharp kicks, sent it to a subcommittee "to devise decent means of burial," as one of the members expressed it.

Prohibition won a temporary triumph in the house. The question arose when the committee on temperance reported postponing indefinitely the A. V. Anderson bill calling for an amendment making possible statewide prohibition. Mr. Anderson objected and moved that the bill be printed and placed on general orders. The motion carried.

### DUNNE TO DEMAND RECOUNT

Attorneys for Chicago Mayorality Aspirant File Notice.

Chicago, March 4.—Attorneys for Edward F. Dunne, defeated Democratic candidate for mayor, filed notice with County Judge Owens that a recount of the votes cast in the primaries Tuesday will be demanded. Affidavits in support of the demand and formal application for the recount will be submitted.

### BARB TOBACCO FROM MINORS

Washington Legislature Passes Draconic Anti-Smoking Bill.

Olympia, Wash., March 4.—The house passed the senate bill repealing the law forbidding the sale of cigarettes. The bill, which will become a law upon signature by the governor, makes it a misdemeanor for a minor to have tobacco in his possession and a gross misdemeanor to sell tobacco to a minor.

### LETTING DOWN STOCK BARS

Agricultural Bill Allows Importation of Mexican Cattle.

Washington, March 4.—Because of a shortage of beef congress incorporated in the agricultural appropriation bill a proviso whereby Mexican cattle within the quarantine line will be permitted to enter the United States anywhere below the Southern cattle quarantine line of this country. This legislation will stock American pastures and afford a much needed supply of beef for the big packers in Oklahoma City, Fort Worth, Kansas City, Omaha and Chicago.

## SENATE BUSY IN CLOSING HOURS

B. BRANDENBURG.

Writer Sentenced to Sing Sing for Forging Check.

### WRITER GOES TO PRISON

Broughton Brandenburg Sentenced to Sing Sing for Forging Check.

New York, March 4.—After a jury in general sessions court had considered the evidence for fifteen minutes it brought in a verdict of guilty of forgery against Broughton Brandenburg, the magazine writer, and Judge Swann sentenced him to Sing Sing for a term of from two years to four years and six months. He almost collapsed when sentenced was pronounced.

Brandenburg, who was charged with forging and cashing a check for \$56 last summer, has figured in court proceedings for the past two years, not only in connection with the sale under alleged false pretenses of an article purporting to have been written by the late Grover Cleveland.

### Convicted of Manslaughter.

Minneapolis, March 4.—August Roudahl, charged with the murder of John A. Kibby, near Medicine lake, just outside the city limits of Minneapolis, Jan. 4, was found guilty of manslaughter in the second degree, by a jury in the Hennepin county district court. Roudahl will go off with anyone from one to fifteen years in prison. Self defense was Roudahl's plea.

### POSITION OFFERED HOWARD ELLIOTT

May Become Head of Missouri Pacific Railway.

St. Louis, March 4.—Howard Elliott is the choice of the dominating group in the Missouri Pacific for successor to George J. Gould. He has the proposal under consideration and his friends have advised him to accept it. Should he come to St. Louis as the head of the principal Gould lines, and it is deemed a certainty that he will, Mr. Elliott will be the highest paid and most powerful railroad executive in the United States.

Such a burden as has been offered to Mr. Elliott has never weighed on the shoulders of an American captain of transportation. He will be expected to reconstruct every mile of line, provide new equipment, reorganize all departments of the service and manage 7,300 miles of railroad, stretching from St. Louis to Pueblo and from St. Louis and Omaha to Texarkana, Tex.; Lake Charles, La. and Ferriday, La. Another problem which will confront him is the extension of the system to Galveston and Laredo.

### VAUDEVILLE WAR IS ENDED

William Morris Disposes of Houses to Marcus Loew.

New York, March 4.—A vaudeville war of fifteen years' duration was ended when Marcus Loew, a New York theatrical manager, bought an interest in and took over active control of the vaudeville houses operated or booked by William Morris, Inc.

The theaters include prominent houses in New York, Brooklyn, Chicago, St. Louis and Cincinnati and nearly a hundred theaters which were booked by the William Morris offices in the West and Southwest.

Mr. Morris will remain with Mr. Loew as his associate.

### FRONTIER TO BE DETERMINED

Chinese and Russian Commissioners Will End Dispute.

St. Petersburg, March 4.—A dispatch from Peking says that the Chinese government has agreed to the appointment of Russian and Chinese commissioners with full power to finally determine the frontier from Abagajuwsk, in the province of Transbaikalia, to the Argun river, throughout its course of 440 miles, forms the boundary line between Russian territory and Western Manchuria.

## Upper House Rushes Through Appropriation Bills.

### LORIMER ITEM CAUSES STIR

Sum of \$25,000 in General Deficiency Bill to Pay Expenses Incurred by Illinois Senator in Defense of Bribery Charges Causes Great Uprow, but Mr. Lorimer Makes Graceful Speech and Has Item Stricken.

Washington, March 4.—Congress will be called back by President Taft in special session about March 15. The call will be issued immediately. This information came informally from the White House.

The senate ran against a new snag which for a time threatened to disrupt the hard earned peace and harmony of the situation and plunge the senate again into series of filibusters. The general deficiency bill, the last of the big appropriation measures to be considered by the senate, developed an item of \$25,000 to pay the expenses incurred by Senator Lorimer in his defense of the bribery charges.

The reading of this item was almost like a bomb to the senate and immediately there was a great uproar. Progressives were declaring that they, as members of the committee on appropriations, had not been consulted and some Republican regulars even joined in the hullabaloo.

It looked for a few minutes as if all the hard work of the leaders to bring about a peaceful meeting had blown up by a great blunder. But the protest was hardly under way before it was noticed about the senate chamber that this item was a "plant" designed to afford Senator Lorimer an opportunity to make an impressive renunciation. Whether this is true it was only a few minutes later when the senator from Illinois arose and announced that while he had been under heavy and unjust expense in defending the attack upon him he would not accept the proposed appropriation and asked for its elimination.

This afforded Senator Hale, chairman of the appropriations committee, who voted the other day against unseating Lorimer, an opportunity to compliment him at considerable length upon his generous action, which he characterized as being in keeping with the good sense and taste shown by Senator Lorimer throughout the entire case.

The senate passed the remaining four big appropriation bills. These were the postoffice, carrying about \$240,000,000; the naval, with appropriations aggregating \$126,000,000; the sundry civil, \$142,000,000, and the general deficiency, \$8,000,000. All told the senate authorized the expenditure of something like \$536,000,000.

Figuring on the actual time that it was in session the senate authorized the expenditure of about \$50,000,000 an hour, or a little less than \$1,000,000 a minute.

### ALL THROUGH AT BISMARCK

Many Bills Pass Legislature in Closing Hours.

Bismarck, N. D., March 4.—Working till far in the night and long after the midnight hour the North Dakota assembly completed its legislative work. Amid confusion that was seemingly rampant everywhere the number of new laws that have been passed is very large and no successful effort can be made to enumerate all of them.

Direct election of national committee members, party choice for candidates for president and vice president and direct election of delegates to the national convention are features provided in one of the most important bills passed.

Amendments to the state game and fish board of control bill were finally agreed to and presented to the governor for his signature.

Legislative apportionment was pulled through successfully, with a senate vote of 50 and a house vote of 112 members.

Articles of impeachment were filed in the house against Judge John F. Cowan of the Second judicial district. They were approved by that body and transmitted to the senate by the impeachment board of managers and that body set March 28 as the date for the opening of the trial of the now famous case. In the articles of impeachment eight separate charges are set forth.

Montana for Reciprocity.

Helena, Mont., March 4.—The senate concurred in the house bill praying for the ratification of the Canadian reciprocity agreement on the ground that it will materially reduce the present high cost of living to the people of the United States and will furnish an increased market for the products of the Northwest.

Depends on What's Out.

"What are proper calling cards?" "Depends altogether what's out against you, old sport."—Exchange.

Four Handed.

"A monkey has four hands," remarked the zoologist.

"Yes," replied Mr. Cardwell. "It's a shame to see the animal neglect its opportunities. It could play an entire game of bridge all by itself."—Exchange.

**SENATOR BAILEY RE-SIGNS FROM SENATE**

Special to The Dispatch:—

Washington, March 4.—President Taft has decided the extra session shall begin April 4. A sensation was caused by the announcement shortly after adjournment of the senate that Senator Joseph W. Bailey, of Texas, has resigned. He refused to give his reasons for his action. The tariff board bill passed by house was passed by the senate this morning with several amendments. The house democrats started to filibuster against the amendments which threatened to tie up the money bills, and Representative Payne was forced to withdraw the measure at the last moment and it failed to pass.

**Obituary**

Mrs. Mary Dye, whose funeral was held yesterday at her home at Flak postoffice, was one of the old inhabitants of this county and state. She came from Pennsylvania to Minneapolis in 1867 when that city was but a small village with but few promises of its present greatness. In the early days of Crow Wing county she came to Flak with her husband and two children. She knew well the hardships and anxieties incident to pioneer times, but with a splendid womanly heroism she fought the good fight and dying at the good measure of 80 years, leaves behind a name of piety and faith.

Two children survive her, Judson J. and Ada F. Dye, also two grandchildren Mrs. Ada May LaFavor, of St. Paul, and Purviance D. Swisher, of Flak.

Rev. W. J. Lowrie officiated at the funeral, which was held at the home and which was attended by a large number of relatives and friends of the deceased. Interment was in Evergreen cemetery.

**It Was Rather Unpleasant.**

A constable in the municipal police had a very unpleasant experience quite recently at the hands of a couple of Austrian sailors. He was called upon to settle a dispute between the sailors and some rich kids coolies, and while executing his duty as a policeman he was stabbed in no less than ten different parts of his body. Further police assistance was summoned, but before it arrived the injured constable displayed considerable bravery and pluckily held on to his assailants until the arrival of a foreign policeman.—Shanghai National Review.

**"Bits" of Money.**

How much is six bits? Way back in the good old days there were no nickels and dimes. Small change had to be cut off a dollar as needed. They used to take a big silver dollar of our daddies and with an ax cut it into eight pieces, something like slicing a pie into pieces. Each piece was one bit. Six bits is 75 cents, and the term is still used for short in some parts of the United States. "Two bits," "four bits" and all the other bits are far more seldom spoken nowadays. Your great-grandpa used to put it on a hickory log and with chisel and ax make small change. Uncle Sam had to put a stop to it. Some made ten bits out of \$1.—New York Press.

### ELK'S SENATE BUSIER THAN REAL SENATE

Mock Session Passes Bills Licensing Cats and Bachelors and Prohibiting Hobble Skirts

C. A. ALLBRIGHT PRESIDED

Large Attendance Present—Luncheon Served—Annual Election of Officers is Held

The mock senate session at the last regular meeting of the Elk's lodge attracted a large attendance and over 60 Elks were present to join in the fun of the occasion.

Judge C. A. Albright presided. C. H. Rattinger was appointed clerk of the session. L. W. Sherlund was the sergeant-at-arms. Clyde Parker and H. E. Ousdahl served as tellers. All the other members present acted as senators.

Some wonderful rulings were made by the presiding officer and if adopted and generally used would require new editions of the Reed and Roberts manuals. Clerk Rattinger, at one stage of the game, was afflicted with astigmatism and when told to count heads found only three present of an assemblage of 30 voting in the affirmative. The house frequently carried one thing and the chair, undisturbed, serenely carried something else. Speaker Cannon would have been green with envy if he could have seen the absolute freedom enjoyed by the presiding officer of the Elk's senate.

The bills, of which due notice had been given to all constituents, were three in number and touched subjects which needed legislative treatment.

S. F. Alderman introduced, by special request it is said and also on his own initiative, the following:

“A bill for an act to prohibit the manufacturing, sale and use of hobble skirts in the State of Minnesota: Be it enacted by Elks Lodge No. 615 of Brainerd, Minnesota: Sec. 1. That from and after July 1st, 1911, it shall be unlawful to manufacture, sell or use what is commonly known and called the Hobble Skirt within the state of Minnesota.

Sec. 2. Any person found guilty of violating any of the provisions of this act shall be deemed guilty of insubordination and punished by being compelled to ride from Brainerd to Mille Lacs lake and return in Bill Holst's manure spreader.

Sec. 3. This act shall take effect and be in force on and after July 1st, 1911.”

The measure was eventually carried although it needed the most delicate and skillful handling on the part of Attorney Alderman. It aroused a storm of discussion. Some senator from Squeedunk objected that Bill Holst's manure spreader was getting a lot of free advertising in this matter and that one of Purdy's

equipages would do just as well. But on a vote all opposition died out and Bill Holst's manure spreader came in victorious like a rider attached to an appropriation bill.

Dr. K. H. Hoorn presented his bill taxing bachelors and in his speech championing his bill claimed that somebody in Minnesota had appropriated his idea and presented it to the real senate at St. Paul.

This discussion over this bill aroused so much trouble that all the unmarried men present shook in their shoes. The bill was carried after strenuous opposition on the part of the unmarried men, who, however, were outnumbered by the married gentlemen. It reads as follows:

“Be it enacted by the senate of the Benevolent and Protective Order of Elks:

That all unmarried male persons between the ages of twenty-five and fifty years shall be taxed a per capita tax of ten dollars (\$10.00) each, per year.

The next thing on the taps, as they say, was Attorney W. H. Crowell's celebrated bill licensing cats. Bill, as he is affectionately known, had labored on this bill unceasingly to the detriment of even his own professional business. He consulted Cyc. Britannia, and all state reports to post up on this all absorbing question.

After a regular cat fight of a session the measure was passed. It reads:

“Bill's Bill For an Act.” An act to legalize and compel the taxation and licensing of cats, at and within the state of Minnesota.

Be it enacted by the senate of the Benevolent Protective Order of Elks.

Section 1. It shall be unlawful for any person to keep, harbor or consort with any pussy, tabby, Thomas or kitten cat, without first having duly paid a fixed stipend and having obtained a license therefor, from any fourth class or out-classed postmaster, which postmaster shall furnish to all applicants therefore free of charge, a good substantial tag duly engraved with the age and breeding of all Pussy, Tabby, Thomas or Kitten cats, so licensed and tagged, and shall deliver the said tag to said applicant, which tag shall be fastened to the neck of said Pussy, Tabby, Thomas or Kitten cats, by a red, white or blue ribbon.

Section 2. The license fee shall be fixed at the sum of one half of one per cent of the value of an official's promise to resign if he does not suit his constituency, to be paid for each Pussy, Tabby, Thomas or Kitten cat, which license money shall be paid to the treasurer of the Cyclone Club.

Section 3. Provided, however, that nothing in this act contained shall apply to, interfere with, or be a lien upon any other than feline cats.

Section 4. This act shall take effect and become a law and be in force from and after the signing hereof by any literary policeman, found awake on his beat.

After the strenuous labors of this impromptu senate, which, on the whole accomplished as much with these bob tail subjects as the real senate has done to reapportionment, the mock senate, on motion, adjourned sine die and discussed a very good luncheon.

The annual election of officers was then held and resulted as follows:

Exalted Ruler—C. A. Albright.

### WILL SOON FINISH N. P. WATER TOWER

50,000 Gallon Tank is Constructed on Tower 145 Feet in Height

KENNA COTT CO. IS CONTRACTOR

Tank Will Furnish Water and Also Fire Protection to N. P. Sanatorium

The Kennacott Co., of Chicago Heights, Ill., has about completed the construction of a 50,000 gallon tank at the Northern Pacific sanatorium. The steel tower rests on cement piers which were put in by the crew of Bridge Superintendent McFarlane.

On this was constructed the tall, slender steel tower which attains a height of 110 feet from the piers to the bottom of the tank. From this point to the balcony is a distance of nine feet. To the eave of the roof is 20 feet and four inches and from thence to the highest point of the roof is six feet. This makes a total height of tower and tank of 145 feet. The tank is 18 feet in diameter and is made of plates of 5-16th inch steel.

The well furnishing the water supply was bored about a year ago by McCarthy & Co. of Minneapolis, which firm makes a specialty of this kind of deep drilling. It is of an artesian nature as it bubbles within 60 feet of the surface.

Eight inch casing was used and a depth of 234 feet attained.

The contractors in constructing the tower have used a gasoline engine to run their air compressor. All riveting and hoisting has been done with air.

A brick addition, 12 by 13 feet and one story in height, has been built on the heating power plant of the sanatorium. In it will be placed a seven and one half horse power electric motor to be used to fill the tank.

Water will be supplied to the hospital, the doctor's residence and the nurses home. The main object for erecting the tank, however, was to furnish efficient fire protection.

The pipe and hydrant work was done by Supt. McFarlane's crew, which commenced work in December and has not quite finished its task. Four fire hydrants have been placed on the grounds. The six old hydrants will be used for sprinkling. As the sanatorium is the main point to be protected two fire hydrants have been placed on each side of the hospital. It is expected to turn on the water by April first. The city water, however, will still be retained as it will be useful in case of a sudden emergency.

### HAND WAS A BEAR'S FOOT

Supposed Human Hand Found in Mahlum Lumber Yard Turns Out to be Bear's Left Paw

The great excitement recently occasioned by the finding of a supposed human hand in Mahlum's lumber yard has been dispelled by the opinions of two doctors and several hunters who pronounced the object the left paw of a bear. Ole Rodman found the thing and carried it to the city clerk, where many curious people gazed at it.

The thumb was cut off on the first joint and the fingers were little stubs, appearing to have been amputated. Instead of the human ratio of four fingers and a thumb this thing had five stubs and a section of a thumb.

Chief Quinn carried it to Dr. R. A. Beise who declared it a bear's foot. His opinion was corroborated by Dr. J. A. Thabes. The piece of flesh is still at his office. Hunters examined it and pronounced it a bear's foot.

So this puts at rest the story that some one had been killed or lost his hand in an awful combat.

### TARIFF BOARD BILL PASSES

Special to The Dispatch:—

Washington, March 4.—Bill to create a permanent tariff board passed the senate this morning by a vote 57 to 23 amid turbulent scenes. Senator Gore, of Oklahoma, sought to offer the Canadian reciprocity agreement, but the tariff board bill was passed to its third reading and he was shut out. Senator Stone moved to reconsider the vote, but motion was laid on the table by a vote of 56 to 22.

### SHOP LIBRARY TRANSFERRED

The Valuable, Technical Library is Removed Today From Shops to the Y. M. C. A.

This morning a flat car was loaded with the complete shop library and transferred to the Y. M. C. A. The whole library went including 900 books on technical and other subjects, pamphlets, magazines, papers, etc., bookcases, reading tables, paper racks, library seats, etc.

Some time in December the members of the library association voted to transfer the library, over two-thirds of the members favoring the change. It took some time to gain the consent of the trustees of this association which include prominent railway officials. They have concurred in the recommendations adopted by the members and accordingly the library was transferred.

There is no question about the officials of the Y. M. C. A. being pleased. The secretary E. L. Ludwig was wreathed in smiles and every member of the association was proud of the important position the institution has now attained. Many improvements have been inaugurated under Secretary Ludwig's direction and the association is maintaining a steady growth.

### SEC'Y NASH'S TALK ON SOCIALISM

“After Socialism,” Says Mr. Nash, “We May Have Philosophical Anarchy in the Country”

HE FAVORS WOMAN'S SUFFRAGE

“Kill a Million or Steal a Billion and They Make You Boss of the Government”

J. E. Nash, the state secretary of the socialist party and twice a candidate for governor on the public ownership party of the state as well as a veteran of the war of the rebellion, spoke at Walker hall to a fairly large audience last night and used “Socialism” as his theme.

The most startling remark he made was that after socialism was gained, the next step might be philosophical anarchy. This brand of anarchy, believing that all government was not in the interests of all would seek to rule by the simple application of the “golden rule.”

“Our government of today,” said Mr. Nash, “is the government of the few, by the few and for the few instead of the government as mentioned by Abraham Lincoln, ‘the government of the people, by the people and for the people.’ Interest, profit and rents built up the wealth of the few at the expense of the many. The police force, all branches of the government as well as even the educational branches of this country are monopolized by the few. And we honor the greatest robbers of this country. If you kill a million or steal a billion they will make you boss of the government.”

“And the tragedy is that the workmen who are deceived continue voting the same old tickets. In your spring election your party should elect nothing but socialists.”

Mr. Nash favored woman's suffrage and said that a woman, on the average had two years more schooling than a man. She should have the ballot and also stand on an equality with a man in the matter of wages.

Socialism did not destroy the home. On the contrary it proposed to so better conditions that a happy home with enough to eat, drink and wear would be possible. More men and women would be able to marry and there would not be the towns in Massachusetts known as “he towns” or those in Pennsylvania termed “she towns,” where only men and women respectively inhabited such communities.

Socialism did not encourage atheism. The fact that Robert Ingersoll, the atheist and distinguished lecturer was a republican, did not make the whole republican party of that belief.

“The socialist party,” said the speaker, “is the only party which is endeavoring to do what Jesus Christ commanded and is trying to lift up the very dregs of society and to permit them to enjoy the fruits of their labor and toil.”

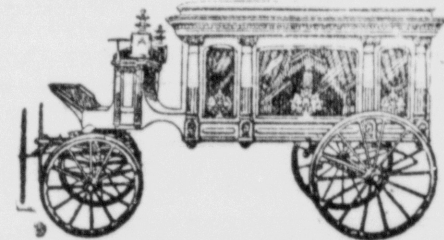

“We expect no aid from the capitalists and must get the money for the propagation of our work from the workers themselves.”

## Three-Day Cure

FOR

## Drink Habit

It is idle to talk of the curse of the Drink Habit. It undermines the vital forces of the system. It unfits a man for business. It makes the home of the victim unhappy. It is the broad road to poverty, disgrace and crime. The drinking man is a marked man. No one wants to employ him. He is blacklisted at railroad and business offices. In the industrial and commercial world he is an Ishmael with every

man's hand against him. For such a man the Neal Institute is a home of refuge. By a simple treatment requiring only three days' time, the slave of drink is made its master. Instead of a craving for liquor which will not be denied, the Neal Treatment creates a distaste for and an aversion to liquor. The effectiveness of the Neal Cure has been demonstrated.

## No Hypodermic Injections

The Neal Treatment contains no poisonous drugs or substitutive stimulants. There are no hypodermic injections. No injury to health. In fact, there are no bad after effects, yet it is the most effective remedy ever discovered. In THREE DAYS every trace of alcoholic poison is eliminated from the system, and with it goes all craving and desire for alcoholic liquor. All patients accepted for treatment under contract to cure in three days—

under contract to cure satisfactorily—no treatment costs nothing.

The Neal Treatment is not merely a "sobering up" process, but a safe, perfect and thorough cure. It makes no difference how confirmed the drinker, how long he has been drinking, or how much he is drinking, nor how many other treatments have failed, the Neal Treatment will effect a perfect cure. In just three days, to the entire satisfaction of the patient.

## A Small Inheritance.

At the trial of Horne Tooke, Lord Eldon, speaking of his own reputation, said, "It is the little inheritance I have to leave my children, and, by God's help, I will leave it unimpaired." Here he shed tears, and to the astonishment of those present Mitford, the attorney general, began to weep. "Just look at Mitford," said a bystander to Horne Tooke. "What on earth is he crying for?" Tooke replied: "He is crying to think what small inheritance Eldon's children are likely to get."—Modern Eloquence

## STOMACH MISERY ENDS

No Indigestion, Gas, Sourness, Heartburn or Dyspepsia Five Minutes After Taking Diapepsin

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia or out-of-order stomach is merely a matter of how soon you begin taking some Diapepsin.

If your stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a re-enforcement of digestive agents, such as are naturally at work in the stomach.

People with weak stomachs should take a little Diapepsin occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn, sour risings, gas on stomach or belching of undigested food, headaches, dizziness or sick stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapepsin.

Go to the druggist and get a 50 cent case of Pape's Diapepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.

## The Auger Fish.

The auger fish, half fish, half crab. Is the terror of all vessels but iron clads that use the south seas. This creature, which is not bigger than an almond, has a proboscis like an enlarged gnat sting that can bore through even sheet iron. Auger fish frequent many of the lagoons of the coral islands and burrow holes for themselves in the coral, but they have a perverse habit of doing the same thing to ships lying at anchor, and the damage generally shows itself when next the vessel is at sea in bad weather, with disastrous results.

## GOOD NEWS

Many Brainerd Readers Have Heard it and Profited Thereby

"Good news travels fast," and the thousands of bad back sufferers in Brainerd are glad to learn that prompt relief is within their reach. Many a lame, weak, and aching back is had no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading:

Edward Finnerty, 203 Main St., Brainerd, Minn., says: "I used Doan's Kidney Pills some years ago, procuring my supply at a local drug store and I found them very effective. They relieved me of stiffness and soreness in my back had prevented me from doing any kind of work and they also strengthened my kidneys. My experience with Doan's Kidney Pills has shown me that they possess great curative powers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—take no other.
